Maths 10 minutes	<p>Let's recap on the shapes we learnt last week. Can you remember their names? Square, circle, triangle and rectangle. We learnt that a square and rectangle have the same amount of sides and corners but the rectangle has two long sides and the square has four sides which are the same. Here is a shape song that we have enjoyed watching.</p> <p>https://youtu.be/OEbRDtCAFdU</p>	<p>Watch the video of Mrs Edwards https://vimeo.com/502983585 Can you make a 2 or 3 colour pattern? Can you make a 2 or 3 shape pattern? We loved playing the shape pattern game last week so I thought it would be lovely for you to make your own!</p>	<p>Can you play my touch counting game? Watch my video and see if you can carefully count the dots you draw. When you've done it once see if you can beat the timer and draw more dots. To help you to count you could cross out every dot you have drawn so you only count them once.</p> <p>https://vimeo.com/504042509</p>
