'As Early Learners, we explore the world around us, ask questions and develop resilience and independence whilst building positive relationships.'
observe, question, explore, investigate, create, adapt

EYFS Intent

At Pye Green, we recognise the fundamental role a child's early years has in shaping the person and learner they become. Our EYFS curriculum is designed to lay strong foundations so that the children develop the characteristics of an effective learner as well as having the knowledge and skills to be ready for the key stage 1 curriculum. We provide pupils with a safe and stimulating environment that will allow them to thrive. We aim to develop curiosity and nurture children into becoming independent and resilient learners.

EYFS Knowledge and Skills Progression

Our purposeful and engaging curriculum maps out progress, but also recognises that learning in the early years is not always neat and orderly and considers that pupils learn best in different ways. Each area of learning and development is implemented through planned, purposeful play, and through a mix of adult-led and child-initiated activities. Practitioners respond to each child's emerging needs and interests, guiding their development through warm, positive interaction to move their learning forwards. We believe all pupils can succeed and ensure that our teaching practise is adaptive and responsive to the needs of the pupils.
